Advanced Question Response – "What Have You Built?"

Directions: Please respond to the question below.

Question: Have you ever built anything? If so, what? If not, what would you like to build?

Example Answer: Yes, I have built several things. Last month, my dad and I built a bookcase together. My dad is a perfectionist, so he planned how we were going to put it together. He also measured the wood. I cut the boards to the correct size, and we assembled it together. Next month, we're planning to build a chest of drawers for my sister.
